

PROGRAM OVERVIEW

This program is specific for bulk bags/super sacks or changing batteries.

The Safe-Tech Basic Hoist Program is a two-part program consisting of an in-class theory session followed by practical operator testing. The program covers rudimentary operations focussing on basic hoisting practices such as battery changing and work station applications. Participants will learn how to safely and effectively operate your specific hoist(s), attachments and related components. This program is suitable for new and existing operators. Participants with little or no practical operating experience may require practical operator training prior to testing.

COMPLIANCE

Safe-Tech programs meet or exceed all relevant CSA Standards, applicable Federal/Provincial regulations and Ministry of Labour Guidelines.

PROGRAM INCLUDES

- In-class training
- Practical operator testing
- Record of training report
- Written examinations
- Signed safety rules from each participant
- Individual wallet certificates (80% passing score required on both written and practical tests)
- Wall certificate for company

CLASSROOM TRAINING CONTENT

- Applicable legislation and guidelines
- Hazard awareness
- Basic equipment and design principles
- Pre-shift equipment inspections
- Safe hoisting/operating techniques
- Occurrence/damages causes
- Internal responsibility
- Capacity ratings
- Pedestrian/operator safety

LANGUAGE COMPREHENSION

Safe-Tech programs are conducted in English and best suited for participants with good English comprehension. Please advise our office at the time of booking and prior to the start of the course of any comprehension concerns or if you will be providing a translator when warranted. The instructors will do their best to accommodate, however Safe-Tech cannot be held responsible for any situation where comprehension was a factor due to a language barrier or impediment.

DURATION & LOCATION

- 4 hour in-class theory held on-site at your location.
- Practical operator testing is held on-site at your location. The instructor works with 1 - 2 operators at a time for approximately 30 minutes.

PRACTICAL TESTING (FOR EXISTING OPERATORS)

Practical operator testing is held on-site at your facility and is scheduled following the in-class segment. The instructor will work with 2 operators at a time for approximately 30 minutes.

PRACTICAL TRAINING (FOR NEW OPERATORS)

Participants with little or no practical operating experience may require practical operator training prior to practical testing. The duration of practical training varies based on equipment type(s) and aptitude of the participant. Practical training is an additional charge to this program and should be pre-scheduled.

SAFE-TECH ADVANTAGES

Safe-Tech is the Working at Height and Equipment Training Partner of **Workplace Safety & Prevention Services** and this program is Ministry of the Environment Director approved (0.4 CEUs).

- Safe-Tech programs meet or exceed all pertinent standards and regulations.
